LENA FISCHER

Lead Data S

SUMMARY

Data scientist and ML engineer with 9 years of experience taking models from notebook to production. Has led a team of four and owns the full lifecycle: feature engineering, training, deployment and monitoring. Interested in platform-level ML infrastructure roles.

EXPERIENCE

Lead Data Scientist - Nordlicht Analytics (Mar 2021 - Present)

- Led the forecasting team and mentored four data scientists
- Built demand forecasting models that improved planning accuracy
- Moved model training from laptops to a scheduled Airflow pipeline
- Set up monitoring so we could tell when a model drifted
- Reduced training costs by moving jobs to spot instances
- Partnered with engineering to serve models behind a REST API

Senior Data Scientist - Helix Mobility (Jan 2018 - Feb 2021)

- Developed churn prediction models for the subscriptions team
- Built ETL jobs in Spark to prepare training data
- Ran A/B tests to measure model impact on retention
- Wrote dbt models for the analytics warehouse

Data Analyst - Grauwerk GmbH (Sep 2016 - Dec 2017)

- Built dashboards for the operations team
- Wrote SQL queries for monthly reporting
- Automated a manual Excel process

SKILLS

Languages: Python, SQL, R, Bash
ML: scikit-learn, PyTorch, TensorFlow, pandas, numpy, machine learning, deep learning, feature engineering
Data: Spark, Airflow, dbt, Kafka, BigQuery, PostgreSQL, data pipeline, data warehouse, ETL
Cloud: AWS, Docker, Kubernetes, Terraform, CI/CD, MLflow
Practices: A/B testing, experiment design, mentoring, technical leadership

EDUCATION

M.Sc. Statistics, Humboldt University of Berlin, 2016
B.Sc. Mathematics, University of Hamburg, 2014
